

Wireline & DSL Discounts

Employee Discount Program
Retired Employees

Revised December 2019

The Program

You're eligibility for a Wireline and DSL discount after you leave AT&T depends on your eligibility to participate in post-employment benefits and service availability at your primary home address.

You are eligible to participate in the Employee Discount Program (EDP) for retired employees if you satisfy the post-employment eligibility rule in your applicable comprehensive medical program or fall under a special separation provision of a bargaining contract or surplus agreement. Contact the AT&T Benefit Center (877-722-0020) if you have questions about your eligibility for post-employment benefits.

If you ARE eligible to participate in your applicable comprehensive medical program,

you may be eligible to participate in certain Employee Discount Programs (EDPs) for retired employees. Your discount eligibility could be impacted by a number of factors, including your primary residence, Legacy Company and net credited service (NCS).

If you ARE NOT eligible to participate in your applicable comprehensive medical program,

you are not eligible to participate in Employee Discount Programs (EDPs) for retired employees. The discounts you receive as an active employee will be removed from your account, and you will be charged consumer rates for products and services.

The discount you're eligible to receive depends on where you live and whether you retired as a management or bargained employee. Discounted service is only available at your primary home address on file with the AT&T Benefits Center.

You have to agree to the [Terms & Conditions](#) to participate in any discounts offered on Wireline and DSL through the Employee Discount Program.

General Program Eligibility

- Management retirees are eligible for either the 9 State In-Region, 12 State In-Region or Out of Region (OOR) Discount unless they are eligible for either the Legacy BellSouth or Legacy AT&T Discount.
- Bargained retirees are eligible for the 12 State In-Region Discount unless they are eligible for the Legacy BellSouth, Legacy AT&T or West Region Discount.
- Bargained retirees are not eligible for the Out-of-Region Discount.
- Bargained Mobility retirees are not eligible for a discount on Wireline.
- Non-management non-union employees align to the respective management discount based on their primary home address.
- International retirees are not eligible for a wireline or DSL discount.

- Retirees must have discounted AT&T local service to be eligible for a DSL discount.

NOTE: It takes 6 weeks from your last day on active payroll to verify your eligibility for a retiree discount. Do not make any inquiries or changes to your existing AT&T products and services account(s) until you have been off active payroll for 6 weeks, and your retiree status has been validated. During this 6-week period, the system will not recognize you as an active employee or a retiree. If you make any inquiries or changes to your products and services account(s) during this time, you will lose your active discount until your new status can be validated, and you will be responsible for any charges you incur during the time you are not able to be validated as being eligible for a retiree discount. We cannot provide credits or retroactive adjustments if your discount is removed due to changes made during this six-week period.

There are long distance bundle plans that have service charges identified separately for long distance services. These charges will be recognized for the reimbursement calculation to meet the maximum amount of reimbursement. Bundled services may or may not be reimbursable.

Detailed Discount Information – Reimbursement Limits

Years of Service <i>Based on Net-Credited Years of Service</i>	Monthly Discount on Eligible Calls/Charges	Monthly Reimbursement Limit
Less than Six Months of Service	\$0	\$0
More Than Six Months of Service, but Less than 30 Years of Service	100% of first \$10 50% of next \$30	\$25
30+ Years of Service	100% of first \$50	\$50

Note: Bundle plans including local and long distance in one cost amount are allowed to use \$20 from the bundle cost amount towards the long distance reimbursement. Bundle plans that have the cost identified separately on the bill, will use this amount to calculate the eligible reimbursement amount.

If the maximum monthly amount isn't reached, the unused amount can't be applied to other months or toward other calls or charges not eligible for reimbursement. To receive reimbursement, all residential telephone bills and other, personal billing statements must be dated in the same month and year and submitted at the same time.

Special Situations

- When a retiree doesn't have their own residential telephone service because of their living situation, only the calls they make on that residential telephone number are eligible for reimbursement. In this case, the bill doesn't need to be in the retiree's name.
- When a retiree occupies a second residence for at least three consecutive months, they can submit bills for the second residence dated for the period of time the second residence is occupied instead of bills for the telephone number at their primary home address.
- Retirees who are changing their primary home address (not a seasonal move to a second residence) may be reimbursed for eligible AT&T toll calls/charges on both the old and new residence bills for the billing period if the residences overlap.
 - Retirees must attach a note to the two bills certifying the calls appear on two bills due to residence move.
 - The total reimbursement amount cannot exceed the monthly reimbursement limits.

Legacy BellSouth Discount

The discount is available to bargained retirees in Southeast Bargaining Units (CGS4, CGS3, CGT8, CG1A, CGGT, CJJP, CLS4, and CMS4) regardless of their NCS date with some exceptions. Bargained retirees in the job keys/titles in [Appendix A](#) and on company codes CA (Stevens Graphics), QE (L.M. Berry and Company LLC) and QF (Berry Network, LLC) are eligible for the 9 State and 12 State In-Region Discounts, not the Legacy BellSouth Discount.

This discount is also available to Legacy BellSouth management retirees with a net-credited service (NCS) date before 4/1/1996.

Program Specific Guidelines

- Management retirees must have a legacy B merger company code **AND** NCS date before 4/1/1996 to be eligible for the discount.
- Bargained retirees must retiree with at least six months of net-credited service to be eligible for the discount.
- Rehired retired employees may lose their eligibility for this discount because of their adjusted NCS date. Their discount will not revert back to the Legacy BellSouth Discount when they re-retire unless their service is bridged.
